

MEETING AGENDA SUMMARY 01

DATE:	TIME:	MEETING PLATFORM:
June 23, 2026	9:00 PM	Google Meet

MEETING MINUTES RECORDER: FATEEMA BINTI TAHER EVA

MEETING CHAIR : AUNG SING MARMA

INFORMATION UPDATES/REMINDERS

- The next 6-8 weeks, we are going to work on a project — JUCSE Smart Scheduler.
- All team members should be comfortable using Git, GitHub Wiki, Trello, and Slack for collaboration.

DECISIONS MADE

- Technology stack has been finalized for the project:
 - **Backend:** Node.js with TypeScript
 - **Database:** PostgreSQL + Prisma ORM
 - **Frontend:** React
- All team members agreed on the chosen stack as it balances performance, scalability, and team familiarity.

GENERAL ITEMS

- **Team Member Assignments — Coding Standards Research:**
 - Team members are allocated to research coding standards applicable to Node.js / TypeScript / React / PostgreSQL.

- They should identify at least 2 coding standards/style guides (e.g., Airbnb ESLint config, Google TypeScript style guide).
- A brief report on each standard should be prepared for the next meeting.
- **Team Member Assignments — Documentation Tools Research:**
 - Team members are allocated to research documentation tools suitable for the selected stack.
 - They should identify at least 1–2 documentation tools (e.g., TSDoc, TypeDoc, Swagger/OpenAPI for backend, Storybook for frontend).
 - A brief summary of usage, advantages, and disadvantages of each tool should be prepared for the next meeting.
- All findings from the above research tasks will be presented and discussed in the next team meeting.
- Ensure Trello board is up to date with task assignments, deadlines, and progress columns.
- Confirm all team members have been invited to the GitHub repository and Discord workspace.

NEXT MEETING — AGENDA PREVIEW

- In the next meeting we will review and discuss the outcome of the coding standards research findings and share the challenges faced by the team members
